

2027 Division Rankings

These rankings and Division assignments are preliminary and subject to change. Changes may be made because of new teams entering the League or existing teams leaving. In the past new teams have been placed in the last Division. However, if a new team entering the League is an established team and has a record of times swum, that team may be placed in a Division that more closely approximates the strength of the new team. The final composition of divisions will not be known until the league determines the number of teams that will swim during the season.

Division assignments are determined by a computerized swim-off. The median of the top 3 times from each team for each event from every dual meet is computed. Using these 3 times, each team is then swum against all other teams. Placement for the subsequent year is based on the number of wins, with ties broken by total points scored. No allowance is made for aging up or other potential changes.

Division A	Wins	Points	Division H	Wins	Points
Rockville	89.0	54167.5	Daleview	47.0	36689.5
Stonegate	88.0	52800.0	Kentlands	47.0	36370.0
